## Krystolize Your Concrete!™ WATERPROOFING SYSTEM

It's the intelligent, self-sealing water-protection system that transforms concrete into a powerful water-resistant barrier.

Krystol™ relies on a revolutionary crystalline technology that turns porous concrete into an impermeable barrier. The result is a structure with reduced cracking, self-sealing and water-resistant abilities that provide a powerful defense against water damage and

corrosion of reinforcing steel.

So whether it's new construction, upgrading an existing structure or repairing cracks, Krystol™ will help you build the quality, reliability and cost-effectiveness into the concrete.

Other range of products offered by Rovski Sdn Bhd: Sealant and Adhesive products for Construction, Automotive, Metal and Wood Industries.

**KIM** Krystol® Admixture Systems

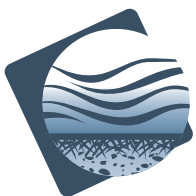

**T1 T2** Krystol® Surface Applied System

**KWS** Krystol® Waterstop Systems

**CRS** Krystol® Crack Repair Systems
